Education

Indian Institute of Information Technology Bhagalpur

Bachelor of Technology in Computer Science and Engineering

November 2021 – May 2025

8.2 /10 CGPA (absolute)

Sunbeam English School Bhagwanpur

Intermediate Science

April 2018 – April 2019

90.2 /100

Relevant Coursework

- Data structure and Algorithms
- Object Oriented Programming
- Network Security
- Computer Networks
- Database Management System
- Operating System

Projects

Chat Ticket | *Next.js, TailwindCSS, TypeScript, API, OAuth* | [GitHub](#) | [Live](#)

June 2024 - August 2024

- Collaborated on a **Next.js** and **TypeScript** web app for **question-answering** with **multilingual** support.
- Implemented **OAuth** authentication and authorization via **Firebase** for secure user management.
- Enhanced performance and user experience through efficient **API** integration and **TypeScript** error handling.
- Designed a **responsive** user interface to ensure seamless experience across **various devices** and **screen sizes**.

Scroll Space | *HTML, CSS, JavaScript, GSAP, Locomotive* | [GitHub](#) | [Live](#)

November 2023 - January 2024

- Built a **front-end** project with **GSAP animations** that enhanced user interaction and engagement.
- Improved scroll performance by 60% using **Locomotive.js** for smooth scrolling and enhanced navigation.
- Enabled **horizontal word scrolling** while scrolling down, enriching user interaction and visual appeal.
- Reduced initial **page load time** by 30%, significantly enhancing overall site performance.

Chat App | *MongoDB, Express, React, Node.js, Socket.IO* | [GitHub](#) | [Live](#)

May 2023 - June 2023

- Developed a real-time **chat application** using the **MERN stack** for seamless messaging and user interaction.
- Achieved low latency in message delivery by implementing efficient data handling with **WebSockets (Socket.IO)**.
- Added **notification sounds** for incoming messages, improving user engagement and responsiveness.
- Enabled users to send **emojis** in chats, enriching the conversation experience.

Technical Skills

Languages: C, C++, JavaScript, TypeScript

Backend: Node.js, Express

Frontend: HTML, CSS, TailwindCSS, Bootstrap, React, Next.js, GSAP

Databases: MySQL, MongoDB

Web Technologies: Socket.IO

Developer Tools: Postman, VS Code, GitHub

Algorithmic Competitions/Achievements

- Qualified as a **top 8 finalist** in the **Bihar Cluster Finals** of the **Tata Crucible Campus Quiz 2024**.
- Secured **29th rank** in **India** out of **5.1 lakh** participants in the **Young Turks** competition, 2024. (**Certificate**)
- Successfully tackled over **1300+** challenging problems on **LeetCode (SJaiShu)**.
- Effectively solved more than **1000+** complex questions on **GeeksForGeeks (shubhamq0xs)**.
- Proficiently addressed over **700+** demanding problems on **CodeChef (shubham_jaishu)**.
- Adeptly solved over **150+** intricate problems on **Codeforces (shubham_jaishu)**.

Certifications

FlipKart Grid

August 2024

- Got selected for **Flipkart GRiD 6.0 Level 2** competition.
- Outperformed **4,84,302 participants** in a highly competitive environment, securing a position in the **top 327** teams.
- Excelled in the **Software Development Track** by leveraging analytical skills and creativity.

TypeScript Development

September 2024

- Successfully completed the **Free TypeScript Tutorial for Beginners**.
- Gained proficiency in **TypeScript** fundamentals, including types, interfaces, and advanced features.
- Developed strong programming skills in **TypeScript**, applying modern development practices.
